

SmartSeries 4.1.7c HotFix4 Update Instructions

SECTION 1 – Download Update

IMPORTANT! – Make sure your SmartSeries is already on version 4.1.7c before running the HotFix. Open SmartSeries and go to Help/About SmartSeries to check version. If it is an older version, run the [SmartSeries Professional 4.1.7c Update](#) first.

1. Go to our website at regenthealthcare.ca
2. Click on the [Downloads](#) link at the top of the page
3. Click on [SmartSeries Professional \(Version 4\)](#)
4. Right-click on [SmartSeries 4.1.7c HotFix4](#) and click **Save Target As...** or **Save Link As...**
5. Save the file to your desktop or another location of your choice

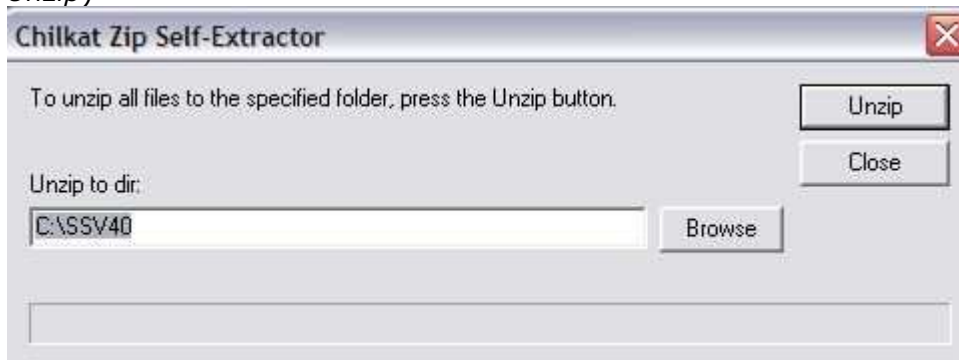

SECTION 2 – Run Update

IMPORTANT! – Make sure to exit out of SmartSeries before running the update

1. When the download is finished go to your desktop (or browse to the folder you downloaded the update to) and double-click **SmartSeries417cHF4.exe**. If you get a 'Security Warning' message click **Run**

2. Click **Unzip** and then **Close** when it is finished (*if your SmartSeries is installed to a different location than the default C:\SSV40, click Browse and select your SmartSeries folder before clicking Unzip*)

3. If you have other computers running SmartSeries, repeat these steps on each computer.

SECTION 3 – Help

If you run into any problems or would like assistance, you can call the support line at 1-800-663-2860 or e-mail support-regent@regenthealthcare.ca.

If you do the update on your own please let us know so we can update our records to reflect your current version of SmartSeries
